Editorial

- Alternatives to epidural analgesia during labour /
 Contre les douleurs de l'accouchement, l'arsenal
 s'élargit
M.J. Douglas **421**

Reports of Investigation

- Gastric fluid volume and pH in elective patients
 following unrestricted oral fluid until three
 hours before surgery
*J.R. Maltby, P. Lewis, A. Martin,
 L.R. Sutherland* **425**
- The pharmacodynamics and pharmacokinetics of
 ORG 9426, a new non-depolarizing neuro-
 muscular blocking agent, in patients
 anaesthetized with nitrous oxide, halothane
 and fentanyl
*J.M.K.H. Wierda, U.W. Kleef, L.M. Lambalk,
 W.D. Kloppenburg, S. Agoston* **430**
- Haemodynamic changes during the apnoea test for
 diagnosis of brain death
*T. Ebata, Y. Watanabe, K. Amaha,
 Y. Hosaka, S. Takagi* **436**
- Scopolamine patch reduces postoperative emesis
 in paediatric patients following strabismus
 surgery
*Y. Horimoto, H. Tomie, K. Hanzawa,
 Y. Nishida* **441**
- Safety and efficacy of alfentanil and halothane
 in paediatric surgical patients
*J.J. Mulroy Jr., P.J. Davis, D.B. Rymer,
 K.A. Chaitoff, J.R. Boston, H.R. Westman,
 D.R. Cook* **445**
- Epidural fentanyl does not influence intravenous
 PCA requirements in the post-Caesarean patient
F.B. Sevarino, C. McFarlane, R.S. Sinatra **450**

Review Articles

- Haemodynamic considerations in the management
 of patients with subarachnoid haemorrhage
*D.P. Archer, D.A. Shaw, R.L. Leblanc,
 B.I. Tranmer* **454**
- Perioperative stroke. Part II: Cardiac surgery and
 cardiogenic embolic stroke
D.H.W. Wong **471**

Clinical Reports

- Patient-controlled analgesia (PCA) using fentanyl
 in a parturient with a platelet function
 abnormality
S.J. Kleiman, M.J. Tessler, S. Wiesel **489**
- Pulmonary oedema after airway obstruction due
 to bilateral vocal cord paralysis
S. Dohi, N. Okubo, Y. Kondo **492**
- Mechanical obstruction to ventilation from an
 ovarian cyst during pregnancy
D. Tay, H.B., L.T. Choon **496**
- Idiopathic orthostatic hypotension, midodrine,
 and anaesthesia
P.J. Osborne, L.W. Lee **499**
- Supraventricular tachycardia associated with
 continuous furosemide infusion
N.J. Wilson, R.J. Adderley, J.A. McEniery **502**

Occasional Reviews

- Anaesthetic management of acute blunt thoracic
 trauma
J.H. Devitt, R.F. McLean, J.-P. Koch **506**
- The stratification of cardiac surgical procedures
 according to use of blood products: a retro-
 spective analysis of 1480 cases
*J.-F. Hardy, J. Perrault, N. Tremblay,
 D. Robitaille, R. Blain, M. Carrier* **511**

Equipment

- Measurement of pleural pressure with oesophageal catheter-tip micromanometer in anaesthetized humans
D.A. Chartrand, C. Jodoin, J. Couture 518

Laboratory Investigations

- Baricity and the distribution of lidocaine in a spinal canal model
A.C.P. Lui, R.J. Munhall, A.P. Winnie, D. Selander 522
- Pulmonary gas exchange and ventilation-perfusion relationships during hypocapnia and thoracotomy in anaesthetized dogs
H. Yoshida, M. Takaori 527
- Propranolol pretreatment reduces cardio-respiratory toxicity due to plain, but not epinephrine-containing, intravenous bupivacaine in rats
W.W. Kinney, J.R. Kambam, W. Wright 533

Correspondence
