

Contents

Editorials

- Alteration of baricity: is it necessary? / Et la baricité, est-ce qu'on la change?
S. O'Callaghan-Enright, B. Finucane **753**

- Esmolol – just another beta blocker? / L'esmolol, un autre bêta-bloqueur?
R. Hall **757**

- Endothelium derived relaxing factor/nitric oxide / Le facteur relaxant endothélial et le monoxyde d'azote
G. Blaise **765**

Reports of Investigation

- Lidocaine 0.5% spinal anaesthesia: a hypobaric solution for short-stay perirectal surgery
M.N. Bodily, R.L. Carpenter, B.D. Owens **770**

- A comparison of fentanyl, esmolol, and their combination for blunting the haemodynamic responses during rapid-sequence induction
K.S. Chung, R.S. Sinatra, J.D. Halevy, D. Paige, D.G. Silverman **774**

- Haemodynamic responses to tracheal intubation following etomidate and fentanyl for anaesthetic induction
L.J. Weiss-Bloom, D.L. Reich **780**

- Mesure du pH et des gaz du sang sur des micro-échantillons: effets de la conservation à 4° C pendant une heure. Etude chez le rat
J.-H. Gaudy, J.-F. Sicard, M. Quignon **786**

- Efficacy, duration, and absorption of a paediatric oral liquid preparation of ranitidine hydrochloride
G.V. Goresky, G.A. Finley, B. Bissonnette, E.A. Shaffer **791**

- Carbon dioxide reactivity and local cerebral blood flow during prostaglandin E₁- or nitroglycerine-induced hypotension
K. Abe, H. Iwanaga, I. Yoshiya **799**

- EMLA partially relieves the pain of EMG needling
Y. Lamarche, M. Lebel, R. Martin **805**

- Laparoscopic cholecystectomy: the anaesthetist's point of view
D.K. Rose, M.M. Cohen, D.I. Soutter **809**

- Alfentanil-midazolam anaesthesia has no electrophysiological effects upon the normal conduction system or accessory pathways in patients with Wolff-Parkinson-White syndrome
M.D. Sharpe, W.B. Dobkowski, J.M. Murkin, G. Klein, G. Guiraudon, R. Yee **816**

Review Articles

- Perioperative haemotherapy. Part II: Risks and complications of blood transfusion
E.T. Crosby **822**

- Endothelial vasomotor regulation in health and disease
N.R. Searle, P. Sahab **838**

Clinical Report

- Anaesthetic management of a parturient with myocardial infarction related to cocaine use
S.S. Liu, R.M. Forrester, G.S. Murphy, K. Chen, R. Glassenberg **858**

Laboratory Investigations

- The divergent actions of volatile anaesthetics on background neuronal activity and reactive capability in the central nervous system in cats
T. Ogawa, K. Shingu, M. Shibata, M. Osawa, K. Mori **862**

Selective beta₁ and beta₂ adrenoceptor blockade on epinephrine-induced arrhythmias in halothane anaesthetized dogs
Y. Hayashi, K. Sumikawa, T. Kamibayashi, A. Yamatodani, T. Mammoto, M. Kuro, I. Yoshiya 873

Influence of desflurane, isoflurane and halothane on regional tissue perfusion in dogs
J.C. Hartman, P.S. Pagel, L.T. Proctor, J.P. Kampine, W.T. Schmeling, D.C. Warltier 877

Equipment

The output of four modern vaporizers in the presence of helium
R.G. Loeb 888

History of Canadian Anaesthesia

M. Digby Leigh (1904–1975)
C.R. Stephens 892

Correspondence

Laryngeal mask for failed intubation in emergency Caesarean section
V. Priscu, L. Priscu, D. Soroker 893

Anaesthesia for outpatient TURP
P.F. Fancourt-Smith 893

Double aortic arch presenting as massive haematemesis after removal of a nasogastric tube
N. Yahagi, A. Nishikawa, Y. Sai, J. Matsui, Y. Amakata 894

Propofol as an adjunct during emergence from general anaesthesia
M.J. Peck 895

Gas mask during pregnancy and labour
U. Elchalal, T. Ezri, D. Soroker, A. Matzkel, A. Weissman 895

Erratum 896

Book Reviews

Researches Practical and Physiological on Etherization. *N.I. Piogoff*
REVIEWER: D.A.E. Shephard 897

Quality of Care: Issues and Challenges in the 90's. A Literature Review. *M.L. Harrigan*
REVIEWER: P. Duncan 897
