Reports of Investigation

- Pharmacodynamics of vecuronium in patients with and without renal failure: a meta-analysis
C. Beauvoir, P. Peray, J.P. Daures, J.L. Peschaud, F. D'Athis 696
- Haemodynamic effects of rocuronium during fentanyl anaesthesia: comparison with vecuronium
E.P. McCoy, V.R. Maddineni, P. Elliott, R.K. Mirakhur, I.W. Carson, R.A. Cooper 703
- Cortical blood flow response to hypercapnia during anaesthesia in Moyamoya disease
K. Kurehara, H. Ohnishi, H. Touho, H. Furuya, T. Okuda 709
- Epidural test dose: lidocaine 100 mg, not chloroprocaine, is a symptomatic marker of iv injection in labouring parturients
P. Colonna-Romano, N. Lingaraju, L.E. Braitman 714
- Intrathecal meperidine for elective Caesarean section: a comparison with lidocaine
S.K. Kafle 718
- A comparison of two doses of epidural fentanyl during Caesarean section
I. Yee, J. Carstoniu, S. Halpern, R. Pittini 722
- Oral midazolam premedication in children: the minimum time interval for separation from parents
M.F. Levine, I.A. Spahr-Schopfer, E. Hartley, J. Lerman, B. MacPherson 726

- Propofol in patients with cardiac disease
N.R. Searle, P. Sahab 730

Laboratory Investigations

- Dexmedetomidine-induced decrease in cerebral blood flow is attenuated by verapamil in rats: a laser Doppler study
F. Bari, G. Horváth, G. Benedek 748
- Cerebral blood flow and cerebral blood flow velocity during angiotensin-induced arterial hypertension in dogs
C. Werner, E. Kochs, W.E. Hoffman, I.F. Blanc, J.S. am Esch 755
- Action of propofol on central sympathetic mechanisms controlling blood pressure
A.V. Krassioukov, A.W. Gelb, L.C. Weaver 761
- The influence of intravenous anaesthetics on polymorphonuclear leukocyte function
W. Krumholz, C. Demel, S. Jung, G. Meuthen, G. Hempelmann 770

Review Article

- Vasodilators during cerebral aneurysm surgery
K. Abe 775

Equipment

- Intraoperative reinfusion of whole blood using a new autoinfusion device
B. Garry, S. Lisman, W.H. Wurm 791

Correspondence
