

Contents

Editorial

- Who benefits when parents are present during anaesthesia induction in their children? / La présence des parents à l'induction de l'anesthésie pédiatrique: à qui va le bénéfice?
R.S. Hannallah 271

Reports of Investigation

- Parental upset associated with participation in induction of anaesthesia in children
J.A. Vessey, M.S. Bogetz, C.L. Caserza, K.R. Liu, M.D. Cassidy 276
- Awake intubation increases intracranial pressure without affecting cerebral blood flow velocity in infants
C. Millar, B. Bissonnette 281
- Arterial oxygen desaturation during peripheral venous cannulation in children
K.K. Gombar, S.S. Nain, B. Singh, S. Satinder, B. Chhabra 288
- Reduction of postoperative nausea and vomiting with granisetron
Y. Fujii, H. Tanaka, H. Toyooka 291
- Isoflurane compared with nitrous oxide anaesthesia for intraoperative monitoring of somatosensory-evoked potentials
A.M. Lam, S.R. Sharar, T.S. Mayberg, C.C. Eng 295

Special Article

- Simple narcotic kits for controlled-substance dispensing and accountability
J.R. Maltby, D.A. Levy, C.J. Eagle 301

Clinical Reports

- Postoperative respiratory depression following excision of carotid body tumours
A. Baraka 306
- Transoesophageal echocardiography detects residual ductal flow during video-assisted thoracoscopic patent ductus arteriosus interruption
J. Lavoie, F.A. Burrows, T.L. Gentles, S.P. Sanders, R.P. Burke, J.J. Javorski 310
- Respiratory acidosis and subcutaneous emphysema during laparoscopic cholecystectomy
D.J. Pearce 314
- Unexpected neurological deficits following recovery from anaesthesia
J. Porter, L. Lynch, S. Hart, C. Keohane 317

Review Articles

- Cerebral arteriovenous malformations in children
C. Millar, B. Bissonnette, R.P. Humphreys 321
- Congenital laryngomalacia
M.R.N. Baxter 332

Laboratory Investigations

- Mechanisms of inhibition of endothelium-dependent relaxation by halothane, isoflurane, and sevoflurane
K. Nakamura, K. Terasako, H. Toda, I. Miyawaki, M. Kakuyama, M. Nishiwada, Y. Hatano, K. Mori 340
- Effets de l'halothane sur les modifications de la PaCO₂, de l'équilibre acido-basique et de la ventilation provoquées par l'hypoxie chez le rat
J.-H. Gaudy, J.-F. Sicard, R. Maneglia, M. Quignon 347

History of Canadian Anaesthesia

- Samuel Johnston (1868–1946)
D.A.E. Shephard 353
-

Correspondence

- Children and size of laryngeal masks
L.C.H. Tham 354
- End tidal O₂ and CO₂ after resuscitation
S. Watanabe, T. Kimura, N. Asakura 354
- Malignant hyperthermia during isoflurane
anaesthesia
*F.A. Chambers, W. Casey, F. Dowling,
K.P. Moore* 355
- Aortocaval compression
T.W. Breen 356
- Epidural catheter entrapment
J.A. Fisher, C. Ananthanarayan 357
