

Editorial

- Hypothermic cardiopulmonary bypass – time for a more temperate approach? / Réflexions sur la circulation extracorporelle hypothermique
J.M. Murkin 663

Reports of Investigation

- The management of temperature during hypothermic cardiopulmonary bypass: I – Canadian survey
H.J. Nathan, G. Lavallée 669
- The management of temperature during hypothermic cardiopulmonary bypass: II – Effect of prolonged hypothermia
H.J. Nathan, T. Polis 672
- Sedative and ventilatory effects of midazolam infusion: effect of flumazenil reversal
C.T. Mora, M. Torjman, P.F. White 677
- Upper airway obstruction during midazolam sedation: modification by nasal CPAP
N. Nozaki-Taguchi, S. Isono, T. Nishino, T. Numai, N. Taguchi 685
- Hypobaric spinal anaesthesia with bupivacaine (0.1%) gives selective sensory block for ano-rectal surgery
M. Maroof, R.M. Khan, M. Siddique, M. Tariq 691
- Left ventricular regional wall motion and haemodynamic changes following bolus administration of pipecuronium or pancuronium to adult patients undergoing coronary artery bypass grafting
G.D. Shorten, T. Sieber, A.D. Maslow, J.M. Haering, L.K. Robertson, M.E. Comunale 695
- A directional needle improves effectiveness and reduces complications of microcatheter continuous spinal anaesthesia
T. Standl, S. Eckert, I. Rundshagen, J. Schulte am Esch 701
- Comparison of 26-gauge Atraucan® and 25-gauge Whitacre needles: insertion characteristics and complications
S.K. Sharma, D.R. Gambling, G.P. Joshi, J.E. Sidawi, E.R. Herrera 706
- Perioperative train-of-four monitoring and residual curarization
G.D. Shorten, H. Merk, T. Sieber 711
- High-dose vecuronium neuromuscular block: a comparison of arrhythmias and onset of block during sufentanil anaesthesia
M.D. Sharpe, J.M. Murkin, T. Vannelli 716
- Should the routine use of atropine before succinylcholine in children be reconsidered?
G. McAuliffe, B. Bissonnette, C. Boutin 724
- Gastric fluid volume and pH after nizatidine in adults undergoing elective surgery: influence of timing and dose
K. Mikawa, K. Nishina, N. Maekawa, M. Asano, H. Obara 730

Clinical Reports

- Twelve hour anaesthesia in a patient with epidermolysis bullosa
A.E. Yonker-Sell, L.A. Connolly 735
- Sudden unexpected sneezing during the insertion of peribulbar block under propofol sedation
D.C. Abramson 740
- Prolonged myoclonus and meningism following propofol
N.J. Hughes, J.B. Lyons 744
